PROFESSIONAL SUMMARY

Hello nice to meet you, my name is Brandon Nguyen, and I'm an aspiring Web Developer. My story started out as a lost college IUPUI undergraduate majoring in Psychology. After the realization I didn't know what I wanted to do with my career, so on a whim I attended an introductory course at Eleven Fifty. After that I discovered my new found appreciation for Computer Science and Web Development at Eleven Fifty Academy as a student. If you would like to get to know more about me please use my Contact Me form below.
